Public event season is in full swing, and with temps in the 100's we certainly have had a lot of experience helping people deal with the heat, and getting them the medical attention they need.

This is great practice for the efforts like we did in Joplin supporting agencies like the Salvation Army. The similarities of disasters and public service events are striking. Some of the main complications lie in the politics of organizations involved in the relief effort. Every agency has its own policies & procedures which need to be meshed & negotiated with the volunteer agencies like ARES that support them when their volunteers run out.

We had a great lessons learned session last weekend to review what went well and what went wrong in Joplin. The results will be shared widely in report form, and I will also be participating in a panel at the Joplin hamfest to discuss this very topic.

Hope you manage to stay cool, and get out and support some of the great events we have in the KC area!
