KØBXF Special

w0oyh@arrl.net

Hi Gang, Late last night I spoke with Bob KØBXF's wife Caroline. They had just moved Bob into a rehab home after his 5 weeks in the hospital. They say it may be another 3 to 5 weeks before he will go home.

Five weeks ago Bob went into the hospital for a heart valve replacement and 3 by-passes. He has had a hard time recovering, his kidneys quit, blood pressure dropped extremely low, accumulated fluids in his lungs, for a while it was down hill. He fought and climbed out of the hole to where he could be moved into rehab.

Your continued prayers are needed. We need Bob back at the helm of the ARRL Kansas Section Emergency Coordinator Job.

Remember Caroline also who has not had much sleep or time for herself the last 5 weeks and there are 3 more ahead.

TU 4 UR prayers,

Orlan WØOYH
