## Club Health

October QST had an article about clubs and the importance of them in amateur radio. They are important but what do healthy clubs do ? Well, it's simple, they do many things but the main thing is they do them.

Let's look at an example of an average general interest club and their calendar for the year. They probably conduct a licensing class about every year or so. (Rural clubs may be less frequent than in a major city.) This could be done in mid winter or in the fall after school starts.

Field Day is an automatic entry on the clubs calendar and everyone participates in some way.

Did you miss the spring picnic and Fox Hunt ? No problem, there's another in the fall.

Nostalgia Nite or radio history nite is always fun. That's when they have cider and donuts and find out why their Elmers tower has that funny VHF antenna with no feed line.

Show and tell is an opportunity to show off their new toy or perhaps building skill.

Election of officers has come around and the current President has held the office for two years now. Two years is doable, that way no one gets burned out. This club changes out two officers every couple of years regardless.

December is when they have the year end Christmas dinner or winter holiday gathering. Frequently this is the awards and recognition nite. This is either at the same place as the meeting in the form of a carry-in or at the restaurant in their meeting room.

The club will operate a Special Event next year as part of the city's 125th birthday and needs input from you. Believe it or not you have the most experience for this endeavor and everyone is looking to you for guidance.

Do you see a pattern ?

The members are participating in things other than the monthly business meetings and there is FOOD ! If your meetings are held at a restaurant then maybe the food part is less exciting but it's still an important component of your clubs activities. Another point is the officers change. The new office holders can't do it alone, they still need your encouragement and ideas. There's something for everyone to be involved in so bring the XYL or OM and dive in.

How does your club's calendar look for next year ?

73,  
Ron-KBØDTI

We had a nice little reminder that disasters can happen anywhere and anytime, in ways you might not think possible!

The little rumblings in KC on Saturday at 11pm proved more exciting than destructive, but it gave us a chance to do a real life exercise....

What did you do when you felt the quake?  
How did you confirm that it was a quake?  
Who did you call, and how would you have contacted them if the phones were out?  
Do you have a designated offsite meeting place?  
Do you have shoes close to your bed in case of unannounced destruction?  
Did you have 3 days supply of water & food for you and your loved ones?

All good points to think about, and to use as a motivator to BOOST your preparedness as winter comes knocking. There are LOTS of good reasons to be prepared, especially when the winter storms blow through. I hope you use this opportunity to motivate you to update all your preparedness points.
